Dear Mr. Jackson.

The purpose of this letter is to offer my sincere appreciation for the ActivePure Technology you helped me to acquire for my school. We absolutely love the Air & Surface Pro units we have installed in classrooms and two offices. My staff is very grateful for the devices and appreciate this extra layer of protection we have put into place at our school.

As the building leader, my goal has always been to ensure that all of my staff and students feel safe, loved, celebrated and challenged on a daily basis. This pandemic has made it very difficult to deliver on the first promise of safety. However, your proven and effective ActivePure Technology has strengthened my confidence that we have taken the most powerful step possible to ensure the safety of my school community.

Thank you for sharing ActivePure with me. I greatly appreciate your support!

Dedicated to Lifting Every Life,

Tom Braddock
